SUMMARY

Passionate and driven computer science graduate with strong knowledge in Java, Python, SQL, and web technologies. Skilled in problem solving, OOPs, and database management. A quick learner with good analytical and logical reasoning skills, open to relocation and online opportunities.

EDUCATION

Master of Computer Applications (MCA)

Shree Devi Institute of Technology, Mangaluru **2025**
Karnataka State

Bachelor of Science (B.Sc)

Canara College, Mangaluru **2023**
Karnataka State

Pre-University Course (PUC)

Canara PU College, Mangaluru **2020**
Karnataka State

Secondary School Leaving Certificate (SSLC)

Little Lilli English Medium School, Kumbbla, Kasaragod **2018**
CBSE

TECHNICAL SKILLS

Programming Languages: Core Java, Python, C++, JavaScript

Web Technologies: HTML, CSS, React, JavaScript, Tailwind CSS

Backend Technologies: Java Spring Boot, REST APIs, Node.js, Express

Database: MySQL, SQLite, MongoDB, JDBC, Database Design, Query Optimization

Development Tools: Git, VS Code, Postman, Maven, npm

Frameworks & Libraries: Spring, Hibernate, Pandas, Matplotlib, Seaborn

Core Concepts: OOPs, DBMS, Data Structures, Algorithms

PROJECTS

PharmaCart: Distributed Advanced Online Medical Store

- Built PharmaCart, a scalable online medical store using Java Spring Boot, MySQL, HTML, and CSS
- Implemented secure authentication, real-time inventory management, and order tracking features
- Enhanced database performance through query optimization and ensured a responsive, user-friendly experience across devices
- Technologies: Java, Spring Boot, MySQL, HTML, CSS, REST API

Gold Price Analysis Using Python

- Analyzed historical gold price data using Python libraries including Pandas, Matplotlib, and Seaborn
- Applied moving averages and time series analysis techniques to identify price trends and forecast patterns
- Performed correlation analysis with economic factors such as inflation, dollar index, and crude oil prices
- Technologies: Python, Pandas, Matplotlib, Seaborn, Time Series Analysis

AutoTrust - Car Selling Platform

- Developed a streamlined car marketplace with admin approval workflow
- Technologies: Spring Boot, React, MySQL, REST API

MicroSaver - Lab Management Tool

- Created an offline-first web application for microbiology students to manage lab data
- Technologies: HTML, CSS, JavaScript, LocalStorage

Gold & Silver Investment Tracker

- Built a desktop application for tracking precious metal investments
- Technologies: JavaFX, SQLite, Java

Portfolio Website

- Developed a next-generation personal portfolio demonstrating full-stack capabilities
- Technologies: React, Vite, Tailwind CSS, Framer Motion

CERTIFICATIONS

Full Stack Web Development

Tap Academy

2025

- Mastered Core Java, Advanced Java (JDBC, J2EE, Servlets), Spring, Hibernate, MySQL, and Frontend Development
- Gained hands-on experience in OOPs, Collections, Multithreading, Exception Handling, and Java 8 features such as Lambda Expressions and Stream API
- Applied skills through multiple projects, including a capstone Online Food Delivery Application, demonstrating full-stack development from database integration to responsive UI design

Java Programming Internship

Codtech IT Solutions

November 2024 - January 2025

- Successfully completed a Java Programming internship at Codtech IT Solutions from November 25, 2024, to January 10, 2025
- Gained hands-on experience and practical skills in Java development
- Demonstrated strong problem-solving abilities, attention to detail, and consistent dedication throughout the program

LANGUAGES

English, Hindi, Kannada, Malayalam, Tulu, Tamil

INTERESTS

Drawing, Reading
